GSAP js library

PROJECTS

Project Name: E commerce website   **Github**

Project Detail   I developed and designed an e-commerce website with a
                                    responsive design, utilizing the DummyJSON Fake REST API
                                    for both product images and details.

Project Name: NEWS website   **Github**

Project Detail   I developed and designed a news website with a
                                    responsive layout, offering daily latest news. I
                                    implemented a filter option for selecting countries and
                                    news categories, utilizing the News API for real-time
                                    data.

Project Name: Personal portfolio website   **Github**

Project Detail   I have designed and developed a personal portfolio
                                    website with a responsive design to showcase information
                                    about myself, my projects, and my skills.
